

# TechCraze 2K16

*XANT*

*If you can control codes, you can control the world*

Do you tackle every problem you encounter with logic and not with emotions? Then don't look further. You are at the right place! This is the event what you want. Go through the programs, give your solution and win the jackpot.....

## Rules & Regulations:-

1. This event consists of two rounds: prelims and finals.
2. Participants can enroll their name as single or as a team of 2 students
3. A participant CANNOT be the part of more than ONE group.
4. The participants will have to select a programming language amongst "C" and JAVA at the start of this event and they will have to continue this whole event with the same language.
5. Participants, who clear the 1st round, will be forwarded to the next round
6. No electronic gadgets (Scientific Calculators, Mobile Phone, Bluetooth devices etc.) will be allowed during the event.
7. Only Black/Blue Pen is allowed. Extra sheets will be provided for rough work.
8. Inappropriate behavior during the event will lead to disqualification.
9. Decision of the Judges will be considered as the final.

## PRELIMS:

1. This round is paper based.
2. Each group will be given a set of 50 questions.

3. Questions are Multiple Choice (MCQs).
4. 30 minutes will be allotted for this round.
5. Results of the PRELIMs round will be announced on the same day.

## FINALS:

1. The Final round is Computer based.
2. A problem will be given to all finalists, which they have to code using the programming language they have chosen at the beginning of this event.
3. Time allotment for solving the problem will be announced at the event.
4. Browsing the internet during test for any purpose is strictly prohibited and will lead to disqualification.
5. Results of the FINAL round will be announced on the same day.

**N.B: Coding should be done only in C and Java Programming Language under Windows 7**

**P.N.B: The above mentioned points are subjected to change as per the requirements.**
